POWER FACTOR

The consumer agrees to maintain power factor of not less than 90%. The Cooperative reserves the right to measure such power factor at any time. Should such measurement indicate that the average power factor of the consumer is less than 90%, the consumer agrees, upon sixty (60) days written notice, to correct such power factor to 90%, or, if the Cooperative shall so elect, the horsepower or demand for billing purposes shall be increased by 1% by which the average power factor is less than 90% lagging.

Demand

The larger of April and May demands will be billed. The larger of October and November demands will be billed. If the load factor is 15% or less for a billings cycle, no demand charge will be billed that month.
